

DigitalSuite

A comprehensive, cloud-native, future-proof digital engagement platform

Insurers today need to make long-term, strategic decisions in an ever-changing and dynamic digital environment. Key digital challenges include the need to quickly build new and improved digital platforms and channels or replace/renew existing ones. Frequently changing market requirements present additional challenges around expanding digital offerings for various types of customers while reducing costs by improving operational efficiency.

Sapiens' mission is to provide insurers with long-lasting business solutions for digital insurance. DigitalSuite is our all-in-one platform for enabling, sustaining, and growing your insurance business.

DigitalSuite Tools

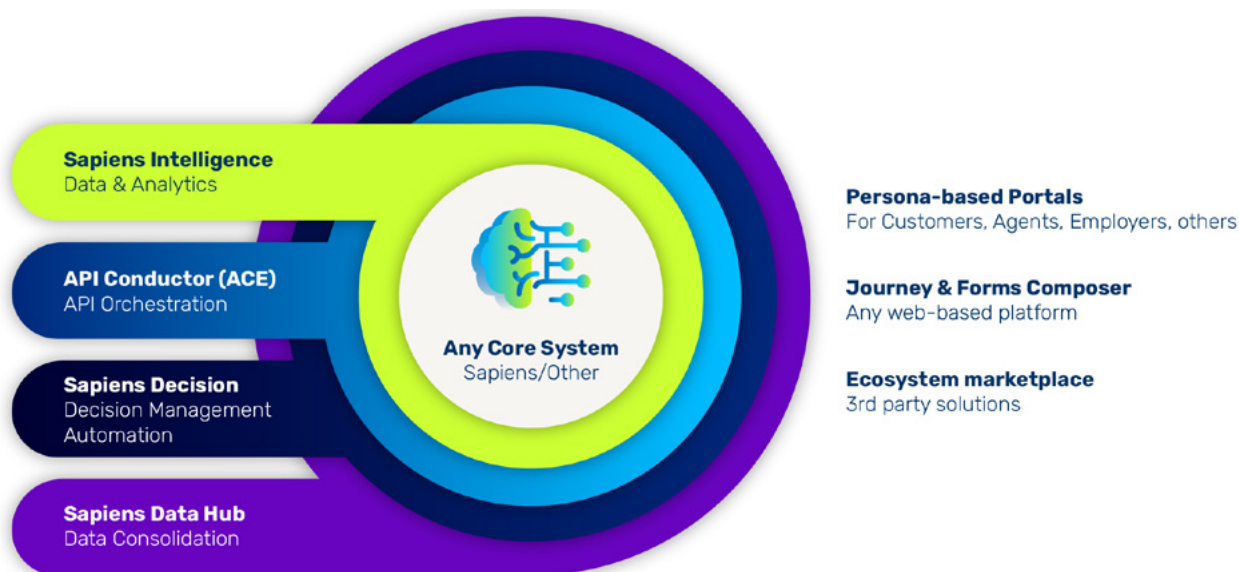

DigitalSuite is a dynamic, self-managed and sustainable set of core-driven engagement tools enabling you to rapidly create, optimize, and extend your offerings to end-users. Unlike homegrown or horizontal multi-purpose tools, DigitalSuite is insurance-centric and flexible. Plus, it goes the distance to deliver a digital transformation that keeps on giving.

Choose from our modular, cloud-native components to transform faster than ever:

- **Persona-based Portals** enable you to rapidly create and launch dynamic, persona-based portals with out-of-the-box, best-practice insurance content for your customers, agents, brokers, employers and others. Benefit from advanced UI and self-service capabilities, across any line of business. [Learn more](#)
- **Journey & Forms Composer** allows you to significantly improve your direct channels by quickly building and launching best-of-breed transactional journeys in new territories or for new lines of business. Leverage core metadata models and reuse assets to introduce more products and services, while providing self-service for sales, servicing, and claims on digital channels of choice. [Learn more](#)

Stay ahead of the competition with Total Experience (TX), enabled by DigitalSuite

- **Boost customer experience** by tailoring DigitalSuite to your specific needs, enhancing user satisfaction
- **Enhance employee experience** and benefit from efficiency gains by accelerated insurance processes and reduced manual work, while gaining data-driven and actionable insights via advanced analytics
- **Improve user experience** by enabling self-service, extending core functionality, driving buying propensity via data, and ensuring accessibility and privacy
- **Optimize multi-experience** by providing a full, seamless omnichannel experience
