IDITSuite
for Property & Casualty

Helping Insurers Achieve Complex Goals

Innovation in the insurance industry is gathering pace and providing Property & Casualty providers with new ways to meet today's non-life market challenges. Rapidly evolving customer expectations, regulation and technology are prompting insurers to integrate innovative digital solutions to resolve complex legacy systems challenges.

Insurers need a solution that will enable them to showcase their market differentiators and focus on their core business strengths. Today's insurers need to address their challenges at a business level with business solutions that add long-term value.

To meet the challenges of Property & Casualty insurers, IDITSuite provides a comprehensive, integrated digital solution including:

| Rapidly tailoring and launching new products	Leveraging the power of Cloud	Open insurance architecture	Advanced, integrated digital solution	Embedded intelligence and analytics

Sapiens IDITSuite – award-winning solution

IDITSuite enables insurers, managing general agents (MGAs) and brokers to meet critical and long-term business goals using both traditional and digitised channels. Our suite was designed with growth and change in mind and is both extendable and personalised to meet your unique circumstances.

- **Rapidly tailor and launch new insurance products**

  Using a variety of low code/no code configuration tools that leverage 'Smart Packs', Sapiens IDITSuite offers an extensive library of pre-configured options enabling rapid go-to-market, product development and flexibility.

- **Leverage the power of Cloud**

  IDITSuite's open architecture, cloud-based capabilities have been further enhanced through an improved DevOps (NoOps) mechanism for enhanced benefits.

- **Open insurance architecture**

  Inherent integration of Sapiens API Conductor (ACE) ensures digitalisation is builtin and APIs can be configured, managed and orchestrated to easily empower your digital initiatives.

- **Advanced, integrated digital solution**

  IDITSuite advanced digital suite is fully integrated with the Sapiens core, built to enhance customer engagement, user experience and automation.

- **Embedded intelligence and analytics**

  Sapiens Intelligence is now embedded within IDITSuite with a wide range of data management and analytics capabilities.

An end-to-end Commercial and Personal Lines solution

IDITSuite supports all end-to-end core operations and processes for personal, commercial and specialty lines of business. The solution features advanced online dashboards, a 360-degree customer and agent view and drill-down capabilities based on individual and portfolio risk. The solution also includes extensive multicompany, multi-branding, multi-currency and multi-lingual capabilities. Our best-of-breed, pre-integrated, full lifecycle modules will enable carriers to achieve their short- and long-term business goals.

IDITSuite is a component-based software solution designed for the P&C market integrating core and digital functions and can be deployed modularly, integrating with your ecosystem's components. The solution is highly customisable, and combines policy administration, billing and claims, along with document management and workflow. The built in DigitalSuite is comprised of Digital Engagement and Enablement and API Layer. DigitalSuite offers a cloud-based, holistic and seamless digital experience.

IDITSuite's preconfigured content and service libraries will enable you to roll out new innovative products quickly and consistently across all channels. It was designed with a strong core and extendable customer/country layers, so that changes can be made quickly without direct changes to the core product. Our suite is flexible and can be configured by your business, as well as IT.
