SAPIENS

Sapiens Medical Professional Liability (MPL)

Empowering Insurers with Purpose-Built Solutions for the Healthcare Sector

Sapiens Medical Professional Liability (MPL) solution is a modern, cloud-first core insurance platform designed specifically to meet the evolving needs of MPL insurers. Backed by decades of experience working with MPL carriers and crafted by a team of seasoned industry veterans, our solution delivers a comprehensive, flexible digital-first platform with unmatched reliability and expertise.

User-Friendly Features

- 7,000+ configurable business rules tailored for MPL workflows.
- Self-service capabilities for credentialing, billing, and claims.
- Intuitive digital front-end for customers, agents, and brokers.
- Modular architecture for easy integration and scalability.

Benefits to Organizations

- Purpose-built for MPL insurers with 400+ person-years of product development.
- Supports rapid adaptation to regulatory changes and market dynamics.
- Enhances customer satisfaction through seamless digital experiences.
- Drives operational efficiency and reduces total cost of ownership.

Capabilities that Improve Insurer Operations

- Streamlined underwriting and policy administration.
- Automated claims management with advanced analytics.
- Real-time data access and reporting for better decision-making.
- Cloud-native deployment for agility and resilience.
