Modernize your core insurance systems with Sapiens IDITSuite on Microsoft Azure

IDITSuite provides a 360-degree view of individual and portfolio risk for personal, commercial, and specialty lines. It combines policy, billing, and claims with embedded intelligence to streamline operations and reduce costs.

Empowering intelligent insurance together with Microsoft.

Sapiens and Microsoft enhance insurance innovation through cutting-edge, cloud-based solutions. By integrating Microsoft Azure OpenAI and Power Virtual Agents, IDITSuite delivers advanced generative AI that automates insurance processes, while ensuring strict data compliance. Insurers benefit from Azure's robust security and flexible infrastructure, which provides extensive compliance certifications covering over 90 global standards. This enhances smarter decision-making in underwriting and claims processing, while leveraging actionable customer insights to optimize customer interactions.

Drive secure innovation in the property & casualty market with Sapiens.

Unlock a future-proof, AI-powered insurance platform with Sapiens IDITSuite on Microsoft Azure.
