What you'll gain at Ignite Summit 2026

Customer-led sessions highlight perspectives and outcomes for your line of business.

Life, Pensions & Annuities

From Application to Answer. Every life milestone, a decisive competitive edge.

- AI-powered new business orchestration
- Automated underwriting decisioning
- Policy servicing copilots
- 24-hour policy issuance

Property & Casualty

Speed from Signal to Settlement. Outpace disruption and move faster than the market.

- AI-native core platform modernisation (2027 stack)
- Intelligent claims triage and FNOL settlement
- Real-time risk scoring and loss-ratio optimisation
- Embedded insurance enablement

Reinsurance

Capital Decisions at the Speed of Risk. Your capital, deployed with speed and precision.

- Predictive portfolio modelling
- AI treaty structuring and capital efficiency
- NATCAT exposure AI simulation
- Automated cedant reporting

Workers' Compensation

From Injury to Recovery. Better outcomes for claimants and your bottom line.

- One core WC platform for policy and claims (CoreSuite + GO)
- AI-powered injury triage and claims automation
- Return-to-work optimisation and fraud detection
- Predictive reserving and outcome analytics

Decision

From Data to Decision Instantly. Own the advantage with intelligence that acts in real time.

- Automated decisioning engines for underwriting and claims
- Rules-based and AI-driven decision management
- Agentic decisioning with a control-tower for oversight
- Governance, audit trails and model risk controls

Finance & Compliance

Compliance Without the Compromise. Stay ahead of regulation without slowing the business down.

- Real-time financial close and consolidation
- Regulatory change management at scale
- Audit-ready controls and data integrity
- Statutory and regulatory reporting, NAIC-ready

Medical Professional Liability

Complex Risk. Confident Decisions.

- Precision underwriting and streamlined policy operations for medical liability
- AI-powered new business, additions and renewals
- Automated forms and document generation
- Underwriting and policy lifecycle management
- CoreSuite policy administration at scale
